

The Evolution of the Fall Meet Wooden Nickel

The wooden nickel changed in 2023. It evolved from displaying the next four Fall Meet dates to displaying the next two Fall Meet dates. Changes to the wooden nickel is not a new concept. In 2022, the wooden nickels went from four future dates to three dates. Prior to 2022, the wooden nickels had four years of upcoming Fall Meet dates.

Why does the wooden nickel change? It's basically one of the "executive" decisions that the Fall Meet Chairman makes. This year, the Fall Meet Chairman decided the wooden nickels would have two lines of dates to make it easier for aging eyes to read.

Will the wooden nickel change again? It's a possibility. As Hershey Region reviews previous Fall Meet items and plans changes that will improve the visitors experience, the wooden nickel and other aspects of the Fall Meet will come under review and face the possibility of change.
